To promote Green Campus initiatives and reduce the usage of paper, the college has a well installed Enterprise Resource Planning (ERP) System which deals with following activities:

- Students admission (Offline and online)
- Fee collection
- Activity Management
- Human Resource Management
- Online Examinations
- Students Attendance
- Time table
- All kinds of reports related to students.
To promote Green Campus initiatives and reduce the usage of paper, the college has a well installed Learning Management System (LMS) which deals with following activities:

- Provides various facilities for Teachers and Students to create and distribute E-Contents.
- Promotes learning and development through Virtual mode.
