

# G.H.G. Khalsa College of Education, Gurusar Sadhar

## Waste Management Policy

The waste management policy of G.H.G Khalsa College of Education, Gurusar Sadhar is based on using basic waste management strategy of Separating Reducing, Reusing and Recycling the waste. College is committed to make maximum efforts to reduce the amount of waste produced in the campus thereby eliminating the adverse impact of waste material on human health and environment. The Waste Management policy of the college is based on the following objectives:

### Segregation of the waste

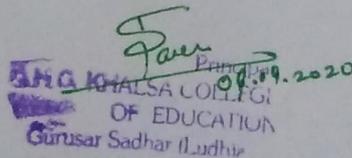

- To collect and separate food waste and non-biodegradable waste in separate bins.
- To dispose biodegradable waste like garden waste (dried leaves), waste papers etc. in the pit dug outside in the garden area.

### Reducing the Waste

- To replace 'Use and throw' items like plastic cups, plates etc. used in the college canteen by reusable items steel glasses and plates.
- To follow paperless practices in the office work and academic work by making use of Information and communication technology (ERP and Learning Management System) thereby reducing the wastage of paper.

### Reusing the Waste

- To use the strategy of reuse in managing the waste produced in the college.
- To make best out of waste produced in the college to prepare teaching aids and crafts from waste produced in the college.

## Recycling the waste

- To help recycle the e-waste like obsolete electronic devices, such as computer systems, servers, monitors, compact discs (CDs), printers, scanners, copiers, calculators, fax machines, battery cells etc. by selling them to vendors collecting e-material.

## Effective management and disposal of waste:

- To use well-designed and eco-friendly strategies for the disposal of waste produced as a result of various activities performed in the college thereby making the campus clean, hygienic and healthy.
- To manage the liquid waste properly by using the waste water produced in watering the plants.
- To manage non-hazardous solid waste like paper, plastics, metal cans, vegetable peels, leaves etc.) effectively.

## Awareness Programmes for Environmental Awareness

- To educate and make the faculty and students aware of the importance of proper waste management practices.
- To organize various awareness campaigns through the NSS units of college for maintaining and cleaning the environment in and around the college campus.
- To celebrate the days dedicated to environmental awareness like Environment day, Earth day, World Ozone day, National Science Day, World Water day.
